ABOUT US

Adiwinoto Eco-Print was established in response to the growing awareness of the importance of sustainability and environmental issues. As a company with a profound commitment to environmental preservation, we strive to produce high-quality products that are environmentally responsible and aligned with sustainable practices.

Our core objective is to empower women through training, education, and the creation of employment opportunities. Through the values we uphold, we aim to continue generating a meaningful impact—not only on the environment but also by fostering human resource development, particularly in Indonesia.

MORE THAN JUST DESIGN

Adiwinoto Ecoprint and Boutique provides environmentally friendly fabrics adorned with unique patterns and refined color palettes. Through the integration of eco-print techniques and fashion design, we present sophisticated and aesthetically pleasing motifs.
